Full Stack Web Development with Laravel

August, 2023

PROFILE SUMMARY

Results-driven and highly motivated Entry Level Full Stack Developer with a background of hands-on experience designing and implementing innovative solutions employing a range of programming languages. Skilled in creating and optimizing website performances and collaborating with cross-functional teams to realize project goals while effectively planning and developing IT infrastructures aimed at the provision of outstanding client-focused experiences. Enthusiastic problem-solver with a keen ability to rapidly assess IT objectives and turn ideas into logical systems that consistently optimize productivity in an official or remote setting. Possesses superb interpersonal skills in relating with varying personalities.

CORE COMPETENCIES

- Excellent functional knowledge of programming languages and performance-orientation in accomplishing challenging development goals under strict deadlines.
- Analytical and resourceful problem-solving with disciplined approach and skill in producing clean, robust code in accomplishing development objective.
- Ability to develop, maintain, support and improve IT solutions, projects and systems to function at optimal efficiency.
- Impeccable communications – articulate and concise, both verbal & written
- Strong team orientation skills – self-confident, willing to share credit, able to build relationships and working processes across cross-functional departments.

PERSONAL PROJECTS

Lahaadeekiddies.com (e-commerce)

- A digital fashion store for the purchase of kids' clothing which serves as a virtual space for the advertisement of available merchandise with a fully automated system enabling the selection of outfits to be purchased, the selection of a delivery/shipping location and the seamless processing of transactional payments during checkouts.
